

The Page Layout tab displays choices of themes for your CMA. It displays samples of cover pages based on the theme chosen. You can add headers and footers to your presentation. Even include your picture, a broker logo in the header or footer, and add your slogan.

The screenshot shows the 'Page Layout' tab in the Paragon 4.0 software. The 'CMA Theme' section has a 'Select Presentation Theme' dropdown menu with options: Vivid, Modern, Vivid, Traditional, Elegant, and Contemporary. The 'Header / Footer' section includes a 'Use Header / Footer?' checkbox, 'Page Location' (Header or Footer), and 'Text' alignment options (Left Align, Center Align, Right Align). There are also 'Include Logo' and 'Include Picture' checkboxes with 'No Photo Available' placeholders. The 'Disclaimer' section has a 'Select Disclaimer:' dropdown with 'None' selected and two radio button options for disclaimer text. A 'Theme Preview' window on the right shows a sample cover page for a 'Comparative Market Analysis' prepared for 'Sally Seller'.

In the drop down menu, choose a theme. Vivid will have color title and separation lines.

Check the box for "Use Header/Footer" then click your preferences.

Type in your text to place a slogan in your footer.

When you select a theme from the drop down, a "Theme Preview" will appear. Once you have a theme, click "Preview" and it will build a preview Cover Page with your information from this CMA.

Disclaimer choice availability will be decided by your Board/MLS.
